

# Wickham's Mouldings

Blends perfectly with your floor

Available in each of our collections

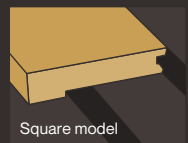

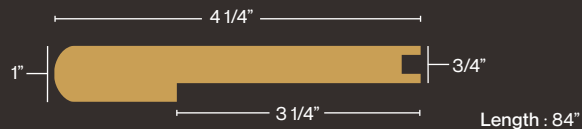

# Mouldings

Our mouldings blend perfectly with the species, color and finish of your floor. All of our mouldings are guaranteed for 35 years (residential use only). Treated with aluminum oxide, our mouldings are made to last, and to retain their colour and finish for many years. They come in every colour, species and finish offered for each of our collections.

## Square and Round Stair Noses 3/4"

Stair noses help to create a smooth transition between the floor and stairs, railings or platforms.

## Square and Round Stair Noses 1/2"

Thresholds help to reduce the distance separating two floor coverings located at different heights (e.g., under doors). They are suitable for nailed or glued flooring, such as hardwood, tiles or carpets.

## T-mouldings

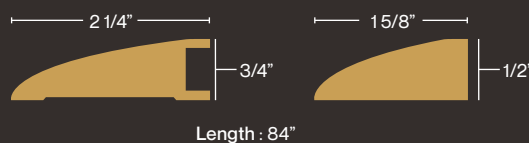

T-mouldings protect the joint between the floors of two adjoining rooms with the same height.

## Reducers

Reducers protect the joint between floors of unequal height, ensuring a gentle transition between the two levels.
